Detox Tips:

- Do not engage in strenuous physical activity, even if you are used to it. Instead, participate in yoga or gentle stretching.
- Get plenty of rest and sleep. You may feel more tired than usual the first few days of detox. By the end of the week, you should feel energized.
- Use spices and herbs, small amounts of low-sodium soy sauce, salt, pepper, vinegar and mustard
- Choose raw, or lightly steamed vegetables
- Do not skip meals
- This is a great time to meditate, listen to relaxing music and engage in other stress reduction activities.
- Think about the commitment you are making to yourself, what you stand to gain and how accomplished you will feel.

How often you participate in a four to seven-day detox program will depend on your particular needs. Some people choose to complete the detox up to four times a year (every three months). It is recommended that you undergo a detox program one to three times each year.
